

South Regional Community Development Corporation

The City of Memphis designated Southeast Regional as a CHDO in 1997. Serving the Westwood Community in providing affordable housing for its residents. Through its partnership with Mount Vernon Baptist Church, First Tennessee Bank, and the Episcopal Dioceses of West Tennessee, Wesley Manor Elderly Cottage was produced. These facilities were constructed to provide housing for independent, low-income elderly citizens. SRCD continued its focus by constructing (5) five single-family houses. As part of a three (3) phase plan for single and multi-family development SRCD constructed a sub-division composed of hundred (100) housing units in the year 2000 as funding under the State of Tennessee low-income tax credits incentive.
